FMCSA Systems Release Notice
February 6, 2010

The following updates to the FMCSA Portal were released on Saturday, February 6, 2010. A general listing of application fixes is below. For additional details or if you have questions, please contact the Federal Motor Carrier Safety Administration (FMCSA) Technical Support team at 617.494.3003 or FMCTechSup@dot.gov.

FMCSA Portal

The following changes were implemented in the FMCSA Portal.

1) Application fixes

- An issue where the FMCSA Portal would generate incorrect New Entrant Expedited Action Letters has been resolved.

- A small, specific set of Enforcement users can now view assignments. Work is still under way to identify and correct the same problem for other users.

- An issue where some Enforcement users could not view carriers who needed to have audits assigned has been corrected.

- An issue where users would see duplicate assignments within "Make Assignments" has been resolved.

- An issue where the system would not save review extension request data has been resolved.

- An issue that prevented users from selecting a company in step two of the assignment making process has been corrected.

- An issue where users would receive an error message when clicking the "submit" button on the "Manage Administrative Review" page has been corrected.

- An issue where users would receive an error message after selecting "Approver Decides on Extension of" and clicking the "submit" button has been corrected.

- An issue where the FMCSA Portal would allow a Company user to view another Company's data has been resolved.

- An issue where Enforcement users who had the Corrective Action Plan (CAP) role did not have access to the "Approve CAP" and "Ext. Request" functions has been resolved.

- The FMCSA Portal Help files have been updated.

- An issue where users would receive an error message when editing their profiles and selecting "Update My Profile" has been corrected.

- An issue where Enforcement pop-up browser pages would not properly recognize session timeouts has been resolved.

- An issue where the Portal would create duplicate entries when processing a CAP or Extension Request from the "Manage Failed Safety Audits" page has been resolved.

- An issue where users would receive a "Page Has Expired" error when clicking the "back" button in an Existing System while logged in via the FMCSA Portal has been corrected.

- An issue where users would receive a "Page Not Found Error" when trying to "View Details" using the magnifying glass icon from the Inspection and Crash Panel has been resolved.

- An issue where the system would not display a confirmation that a CAP had been saved after the user clicked the "save" button has been corrected.

- An issue where the system would render an incorrect Status Type for "My Profile" updates has been resolved.

- An issue where the system would incorrectly display an error for the "Extension Request Received" date has been corrected.

- An issue that caused the assignment summary list to display too many records has been resolved.

- Under "Make Assignment" → "Company Search" → "Assignment Type", the text "Safety Audit Review" has been changed to "Safety Audit".

- An issue where the system would incorrectly show NNA-PASA (Non-North American Pre-Authorization Safety Audit) as a reason for a Safety Audit while a user was making an assignment has been resolved.

- An issue where the New Entrant date would not populate within "Make Assignments" has been corrected.

- An issue where the system would take too long to render data when navigating from step 3 to step 2 of the "Make Assignment" page has been resolved.

- The Enforcement Action, Enforcement Action Status, and New Entrant Status Date columns have been restored on the Search Result Page under Failed Safety Audits.

- Users can now print the Results List on the Manage User Access page.

- The "Assigned by" field is no longer displaying incorrect characters.

- Expedited Action follow-on processing has been disabled for carriers who received New Entrant Expedited Action letters following the December 20, 2009 New Entrant Release.

- The "Cancel Expedited Action" role is now only available for the Service Centers.

- An issue where the Chief Accounts Officer (CAO) would incorrectly receive e-mails for profile updates when a role was approved has been resolved.

- A situation where users would experience slow performance when searching for carriers has been improved.

- An error regarding incorrect calculation of violation 7 in the Expedited Action letter has been corrected.

- An issue where "Receive CAP – Company Details Info" would not display under "Manage Expedited Action" has been corrected.

- An issue where the violations would not display under "Cancel Expedited Action" has been corrected.

- An issue where some Enforcement users with the "Receive CAP" role were unable to view "Manage Failed Safety Audit" data has been resolved.

- An issue where users could not create new Company primary accounts has been resolved.

- The search function for Assignment Type Safety Audit/New Entrant data is now functioning properly.
